MILO MAINE

1958

Annual Reports of the Town Officers

of the Town of

MILO

Maine

1958

Dedication

Having been in Milo less than one year, it may seem presumptuous for me to attempt to write anything for this report about your former Manager. Yet, I feel that I must make some effort to dedicate this issue to him.

His work in your midst for the past sixteen years as Manager of the Town and Milo Water District is shown in many ways.

His interest in behalf of young people and their education was known statewide. If Milo feels, and I believe they have a right, that Evergreen Cemetery is one of the best cared for in this section of the state, it is in no small part due to his efforts and good judgment.

I know he earned, and enjoyed the respect of, the Maine Managers, and the various departments of State and County Government.

His wealth of knowledge was used for many individuals as well as for the benefit of the Town. I know that many people realize far better than I, the many acts of kindness and consideration they received.

In this humble way I feel it a real honor to dedicate this Milo Town Report to:

A good administrator,
A real friend to those who needed friendship
and above all else,
a man with the best interest of his whole family at heart

BION F. JOSE

Sincerely,
O. T. Rozelle,
Town Manager

Municipal Officers

ELECTED OFFICERS

SELECTMEN, ASSESSORS AND OVERSEERS OF THE POOR

Letter of Transmittal

To the officers, tax payers and people of Milo:

It is a pleasure to offer our various reports for your consideration.

Coming in to the work in the middle of the year, and not knowing the plans Mr. Jose had in mind, has of course presented some problems, we have attempted to carry out the services as we felt were for the best interests of Milo people, in so far as we could.

I feel very grateful for the cooperation received from the members of the Council and the other town officers.

The other employees have been friendly and are giving their sincere efforts in your behalf.

I believe I should mention two individuals in particular.

Mr. Wingler

I wish to commend him for the many duties he looks after as a matter of course, also the many other services he performs with a smile.

Mrs. McEachern

Perhaps a part of a day (any day of the week) spent in the town office would be of interest to many tax payers to see the amount of detail that Mrs. McEachern looks after. May I simply state that the office work of our town is and has been in very capable hands. It is a real pleasure to have such a capable worker in the office.

The records of last year have been examined by the State Department of Audit and will be on file at the office for your inspection.

May I assure you it is interesting trying to serve you.

Sincerely yours,

O. T. Rozelle

Protection

Herewith is submitted a report of the Milo Fire Department:

The members of the Milo Fire Department wish to thank the Town Officials and Citizens for their support and cooperation in conjunction with the maintenance and duties of the Department. We also wish to thank Walter Lutterell, agent for the Hartford Insurance Company for the help he has given us, through the schools, to keep fire hazards down in the homes.

Police Officers

MILO POLICE DEPARTMENT REPORT

In this summary I will try to explain to the people of Milo what the duties of an officer are, both day and night.

Each night about seven-thirty I leave my house, drive to the Police station, check with the officer going off duty, also check the recording machine for any calls to be made. During the

next eight hours while I am on patrol, all three thousand of you will be relying on me. You may never be fully aware of this or the task you have given me. When you see me stop for a coffee break about 10 P. M. you will say to yourself that I really have it made. I feel that you should know a little more about the job and then decide who actually is getting the best of the deal. I feel you should know a little more about that too often obscure figure back of the squad car wheel. I hope that I can tell you what I do for you in such a way that you will better appreciate how well spent your police protection tax dollar is. Since this is my story, it will not mention the other officers but they share equally in responsibility and effort.

During the course of my duty, only a few of you will be aware of my presence. Some of you will see me as you come home from a late affair, a few merchants will look up as I rattle their doors if they happen to be there working late, but you all take it for granted that I am on duty. During the night I might get various types of calls. I will try to illustrate a few of them.

I might be called to your house to settle one of those family arguments that has gotten out of hand. At this time you will expect me to act with the wisdom of Solomon and the patience of Job. You are not able to settle your own problems, but you expect me to. After I leave your house, I may chance upon a drunken driver endangering himself and everyone else. I will take him off the road even though it means spending my off-duty time in court, and I will be open for the personal abuse of his family and friends for a long time. Later in the night I might be called to another home, someone sick and in need of a doctor or to take someone to the hospital. Another call might come in from the sheriff's department or state police to watch for a stolen car or hit and run accident. Occasionally your sons and daughters get at odds with the law and once again I am called on to pinch hit. This time I have to be father, mother,

teacher, pastor and big brother to these kids. It's all part of my job, that's what I am getting paid for. Now the cars and trucks start travelling for work. Occasionally, one of you will get in a slight accident. I must give first aid, get a report, keep traffic moving, make an arrest, if necessary.

In these night hours I have answered a variety of calls but there are many more. It could be a murder, a brawl, fire, suicide, barking dog, robbery, burglary or any of a hundred different calls. For eight hours you have called me to render the services of guard, doctor, ambulance driver, lawyer, guardian, father, pastor and friend. For this combination you have paid me less than \$3,000.00 a year. On the basis of an eight hour day, six days a week, you have given me about \$1.04 an hour. Select one of these jobs mentioned above and try to fill it for \$1.04 an hour. Better yet, ask yourself if you would take the job at that pay. I hope the next time you take part in a discussion about police pay you will think of some of the points I have mentioned.

Elton E. Clement

Town Clerk of Milo, Maine

Highway Department

TOWN ROADS

The heavy snow fall during the spring of 1958 naturally cost a lot of money to remove. At the beginning of the 1958-1959 snow removal year, a meeting of the Selectmen and Budget Committee was called. As a result of this meeting we have attempted to render as good service as possible, in spite of the fact that we knew the snow removal account would be overdrawn. It was felt that the citizens of Milo wanted this service.

During the late summer and early fall we had several requests for work to be done on various pieces of highway. We felt that in all these cases the people were entitled to the repairs or rebuilding. Your summer road and bridge account reflects the cost of such repairs.

Due to the ever increasing demand for better roads, it seems to be reasonable to consider at least a short section of soil cement road in our 1959 budget. This is not a "cure-all" but it does, in some instances, meet the demand of very low cost maintenance and almost a permanent road.

Please realize that it is your dollars that we have to use to answer the requests for highways as well as other services.

O. T. Rozelle
Town Manager

STATE AID CONSTRUCTION

At the 1958 town meeting you appropriated and raised \$3,720.00 for State Aid Construction. This was to be used for the re-construction of the "River Road" so-called. Due to the delay of activity of the REG Corporation, the Selectmen voted to use one half of this fund on the Lake View road for new construction. The second half is unexpended to be reappropriated for such work as is deemed advisable.

EQUIPMENT

As you know, this account is used to replace and add needed equipment. A charge is made for the use of trucks, compressor and now the sander against such jobs where they are used. This is the source of income for this account.

At a joint meeting of the Board of Selectmen and Budget Committee it was decided to purchase a Sander. This piece of equipment was purchased new by the C. M. Page Company of Orono at a cost of about \$2,000.00. We were told it was used about thirty hours. We purchased it for \$1200.00. We also purchased a used 3-ton International truck on which to mount the sander. The total cost for the sander, the used truck and cost of mounting is approximately \$2,500.00. This has been paid in full. We hope it will be of service also in the summer surfacing work.

We felt justified in this expense because our general appropriation accounts were completed with a small unexpended balance and no unpaid bills as of Dec. 31, 1958.

Receipts

Use of town owned equipment	\$4,680.53

AID TO DEPENDENT CHILDREN

As you no doubt know, this is a State controlled plan of rendering assistance to take care of those children who for some reason have been deprived of their parent's support. Each case must meet certain State requirements and will then receive such grants as the State law allows. The Town of settlement pays 18% of the grants as determined by welfare laws. In general, it is better for the Town to have a case accepted as soon as possible rather than have it carried as a Town welfare case.

Expended

State of Maine	<u>\$3,319.56</u>
Overdrawn	\$ 419.56

Recreation

The Recreation Association is happy to report a very successful summer season.

Noralee Webb was in charge of the Waterfront Program. The attendance was good and only two minor accidents were reported.

Albert Hackett was in charge of the Baseball program. Due to the lack of summer work available to the boys of High School age, the program was expanded to include the boys of this age group. This made a total of seven Ball Teams sponsored by the Association; namely; Teen-age (High School Group); Babe Ruth (13 to 15 years of age); Little League All Stars (10 to 13 years of age); 4 Little League Farm Teams (8 to 13 years of age).

We feel that the past Baseball season has been most successful. The attendance for the 1958 season was the highest we have had.

Philip Bradeen was in charge of the weekly Street Dances at the Parking Lot. These affairs were very well attended by all age groups. The largest attendance was 211. We strongly recommend that these dances be continued next season.

Most of our time and effort was spent on the re -location and construction of the new ball park and it is hoped that with the appropriation of \$1,000.00 for the coming year we can complete this much needed improvement so that we can insure the safety of our children.

The Committee would like to take this opportunity to thank the many volunteer workers who helped on the Ballfield and especially we wish to thank the members of the Fire Department

who helped to chaperone the street dances.

VIRGIL LAROUCHE,
Chairman

The appropriation as made by the voters of the Town of Milo in the amount of \$2,500.00 was paid over to the Recreation Committee and the following is their report of receipts and expenditures.

Receipts

Appropriation	\$2,500.00	
Receipts from Concession and Ticket Sale	<u>310.24</u>	\$2,810.24

MUNICIPAL BUILDING

At the 1958 Town Meeting you voted to appropriate money to renew the roof on the Town Hall. This was taken care of during the summer.

A "Barrett Built-up Roofing" was applied with a guarantee backed up with a bond. This is supposed to last twenty years. The previous roof was of the same type put on at the time the hall was built, some thirty-four years ago. There were some minor repairs made at the same time.

At the suggestion of the Fire Insurance Rating Bureau, the boiler room has been separated from the rest of the basement. This is one of several steps that have been suggested to make the building more fire resistant, with the added hope of an eventual reduction in insurance rates.

Milo Public Library

To the Board of Trustees of the Milo Public Library:

The report of the Library for the year 1958 is herewith submitted:

Accessioned 239 new books; 191 fiction - 48 non-fiction.
Circulation from 1958 to 1959 - 11,113 books and periodicals.
On January 1, 1959 there were 9,365 books in the Library.
We have repaired 341 books and discarded 15 worn books.

We would like to express our thanks to the following clubs and patrons for their gifts of money, books and magazines for 1958.

Money

Ayuda Club
New Idea Club
A Friend
Mrs. Ethel Gerrish
Mr. & Mrs. W. E. Gammon

Magazines

The Improvement Era	Elders Funk & Whittaker
Progress	Frank W. Keniston
Saturday Evening Post	Cora E. Dutch
M. H. S. Breeze	Breeze Board
National Parent Teacher	Joseph Bradeen

Books

Mr. & Mrs. W. E. Gammon, Mrs. Nell Stitham, Neoteric Club, Mrs. Harry Tobin, Mr. & Mrs. Elmer Jenkins, Mrs. Ethel Gerrish, Mrs. Pauline Sleeper, Mrs. Jennie Snow, Mrs. Max Place.

We have added "American Home" and "Science News Letter" to our list of magazines.

The following teachers have visited the Library this year. Mrs. Cleo Henderson on March 19, with the sixth grade; Mr. Dana Grindle on March 24, with the sixth grade, and Mr. Walter MacDougall on April 23, 30 and May 5, with the seventh and eighth grades.

Respectfully submitted,
/s/ Grace Clapp
Librarian

REPORT OF TRUSTEES OF PUBLIC LIBRARY

To the citizens of the Town of Milo:

With the resignation of Mrs. Carrie Peakes who had served on the board for over 30 years, George Hamlin was appointed in her place.

We would take this opportunity to thank Mrs. Peakes for her many years of faithful service.

Mr. Frank Baker, another trustee has resigned and a new one will be appointed.

We would like to call your attention to the 1959 appropriation of \$500.00 for inlaid flooring. Due to the wear of the hardwood floor we feel that it is very necessary.

This is the budget for 1959 and showing the expenditures of 1958. We are trusting that this meets with the approval of the town.

Receipts

Town of Milo	\$3,000.00

Report of Superintendent of Schools

To the Superintending School Committee, Parents and Citizens of Milo:

It is with pleasure that I submit, herewith, an annual report of the Superintendent of Schools:

The enrollment and faculty of the schools are as follows:

High School:

Fifield, Robert	Principal, Physics, Senior Science, Guidance
Beedy, James	English I, IV, Corr. English, Civics
Blackburn, William	English III, IV, Gen. Math. Driver Education
Gerow, Philip	Commercial
Hasketh, Sara	Home Economics
McAllister, Donald	English I, II, World History, Gen. Science, Biology
Page, Pauline	English III, Latin I, II, French I, II
Payne, Ethel	English II, Speech, Bus. Math, Library
Ross, Allen	U. S. History, Gov't., Civics, Personal problems
Wilkins, Russell	Geometry, Biology, Algebra I, Health, Rev. Math.
Loud, Donald	Music Supervisor

20 Teachers 595 pupils = 29.75 pupils per teacher
 State Law 30

Please note that the above registration is above the maximum for most teachers. The load will be at the Junior High School level in September with inadequate facilities as well as being overcrowded.

FIRE HAZARDS

There is only one building that would be considered 100% safe. The others are old without fire walls, fireproof boiler rooms, etc. The Derby boiler room has been fireproofed and an outside entrance provided, the same treatment is begun at the high school boiler room. Regular fire drills and regular removal of combustibles and janitorial checking of the building is about all that the staff can do for safety. The amount requested for repairs will be applied to correct as many of the existing complaints of the fire inspector as possible.

HIGH SCHOOL

This year has seen many changes in the faculty and under the leadership of Mr. Robert Fifield, as principal, there has been a gradual growth towards improving the school. Please read

his report.

Please give careful consideration to articles in the warrant for creating a district or in some way to provide better facilities.

MUSIC

The sub-primary - sixth grade teachers in the School Union held several meetings last spring and produced a music curriculum for these grades. Together with new books and accompanying records many songs have been taught.

The music teacher, Mr. Loud, has been free to work with the band, glee clubs and has spent some time in some of the grades below the seventh, as much as time would permit. There has been several appearances of the band and the glee club. There probably will be a local public performance this spring and by all means those interested in school music should attend the following: 1. Piscataquis County Music Festival at Guilford, May 2; 2. Eastern Maine Festival at Bangor, May 9.

SURVEY - SCHOOL COMMITTEE & SPECIAL COMMITTEE

(A report of this survey is available for anyone interested)

It is with pleasure that this report was completed for your information and although it is not perfect, I hope that it does convey to you that it is feasible for the area to have one good high school, provided the area wishes to do so. The result of the survey rests upon your decision and not that of the school committee or superintendent.

The application to create an Administrative District for this area has been made and will require legislative approval. As the legislature will probably not act upon the matter until after town meeting, a special meeting will be necessary.

EVALUATIVE CRITERIA

At the time of Town Meeting last year I had only one oral report from which to write article 25 in the 1958 Warrant. Now, I have a full report which recommends that all those items be provided but a few are not required in 1960.

Again, it is not necessary to do anything but it would be my belief that the town would want some improvements.

The library has been improved considerably and the faculty are working steadily in that direction. At the close of the books, only \$455.14 had been expended but orders have been processed for more books since that date.

The addition of the equipment for the Commercial Department should be nearly adequate.

The other items which are required may be selected from an article in the 1959 Warrant. All of these probably could not be completed as required by 1960, as the town must bear the entire cost which is beyond the borrowing capacity, of the town, at this time.

CONVEYANCE

Conveyance routes have been extended annually together with an increase in the number to be conveyed. To continue to expand the services to include the side streets of the compact section will require much additional equipment and time. We now have requests for conveyance in nearly every direction and every road. This service can be adequately done provided the taxpayers want to provide the funds. The amount of funds in the budget makes no provision for any extensions, side streets, or athletics.

SUB-PRIMARY GRADE

The law provides that a child 5 years of age on or before October 15 may enter the sub-primary grade. It should be remembered that the child is not compelled to begin school until age 7. The parents should consider the child, his or her interest in school, health, development and for no personal reason. Approximately one-fifth of each entering class is not ready for school.

SPECIAL CLASS

A special remedial class has attempted to correct some of the problems for these pupils through grade three. This has been helpful in many ways but it still is not the answer.

SCHOOL FINANCES

In the visitation made to the high school last year the recommendation was to have one person in charge of all school moneys. That person to be bonded. This was the method set up here in 1948 but abandoned in 1954.

The principal of each school is now bonded. The elementary schools have made the change and regular reports have been sent to this office.

The High School has not completed the recommendation in this respect at this time. Class funds are not protected in any way, at this time.

The funds described above are used for school improvement, small items, treats, class trips and purchase of some equipment. The elementary schools have added much to the classrooms, school grounds, and equipment.

FEDERAL AID

Although many people are not in favor of federal aid to education it has been expanded so that very soon matching funds will be available for the following areas: Math, science, guidance and foreign language in grades 9 through 12.

There is some federal control. The most important is that the state had to submit a plan. The plan has the following priority:

1. A school with enrollment of 300 or more
2. A District School
3. 40 or more math students.
4. 65 or more science students in laboratory classes.
5. 65 or more in three-year sequence of a foreign language.

SCHOOL MILK

Jan. 1, 1958 - Dec. 31, 1958

The price has varied due to changes made by the State Milk Control Board. The federal subsidy at present is 3¢ and the price is 7¢. Total number of bottles of milk served was 29,536 of which the Ayuda Club distributed 3,831 free. The price to children at present is 4¢.

ELEMENTARY SCHOOLS - Subprimary - Grade 6

The teachers are prepared to teach the grades to which they are assigned. The preparation and in service training of these teachers has been regular and steadily towards improvements. The pupils are working in ability groups with an enrichment of outside reading for those of extra ability. It is my belief that the scholastic achievements of the grades as a whole are very comparable to others in the state.

CONCLUSION

Inclosing, we should recognize and commend special projects undertaken by teachers and pupils that enrich the program or provide items at no cost to the town. The schools have all contributed towards some such item as well as the P. T. A., Room Mothers, Ayuda Club, Lions Club, Alumni, Grange, special committees, local merchants, individuals, and others.

We expect education costs to increase but we do hope that the quality can still improve. I am grateful to all members of the school committee, town officials, parents, citizens, teachers, and pupils for their cooperation at all times.

Respectfully submitted,

Reginald H. Dority
Superintendent of Schools

PRINCIPAL'S REPORT

Last year when we were interviewing prospective coaches for Milo High, one of them turned to me and said, "Mr. Dority says that a coach can teach basketball fundamentals and develop a good team on a small floor just as well as you can on a large floor. That may be his opinion, but not mine. If that is your gym, I am not interested in the position." And with that statement, the interview was terminated. Without an adequate gymnasium, it will become increasingly more difficult to obtain and keep good physical education instructors. Many times the hall is not available to the High School because other civic groups use the hall.

Milo High School must have a full physical education program and an adequate gym if it is to be acceptable for accreditation

before the 1960 deadline.

Do you want your children to be on the second floor of an old wooden building if a fire should break out?

Since the state will pay over half of the construction costs and give generous support to maintain a consolidated building, it seems to be better to build new than to spend money for temporary makeshift repairs and changes to existing buildings.

Your legislators were intelligent enough to realize that something needed to be done to improve the educational program in Maine and the Sinclair Bill was passed to encourage towns to join together to improve their schools. Let us face the fact that the cost of education is going up and the best thing that can be done at the present is to forget our individual differences and traditions and join other towns in order that each town will have more help to give these boys and girls more education for every dollar that you spend!!!

Please remember two things:

1. Our nation was founded on the idea of "United we stand, divided we fall."
2. It is very poor economy to limit the educational opportunities of any town and its youth.

Both the adults and the students have been quite cooperative with the school this year and it is a pleasure to be back with you. I am sure that if you continue to work with the school it will work for you.

Sincerely,

ROBERT W. FIFIELD
Principal Milo High School

ANNUAL REPORT
OF THE
TRUSTEES and OFFICERS
OF THE
MILO WATER DISTRICT
for the
Year Ending December 31, 1958

To the Trustees of the Milo Water District, Milo, Maine:

Greetings:

Herewith submitted is the seventeenth Annual Report of the Maintenance and Operation of the Milo Water District.

There have been 6 new sewer services and 10 new water services installed, and 29 old services renewed.

1219' of 6" cast iron water pipe and 286' of 2" galvanized pipe was laid on Prospect Street replacing the old 1 1/2", 1 1/4" and 1" pipe, and a hydrant installed.

On Highland Avenue 482' of 1 1/4" pipe was replaced by 2" pipe.

4 new manholes have been constructed, 2 on First Street, 1 on Maple Street and 1 on the High School line.

The necessity of renewing water services and mains may be expected to continue as the age of many of them is such that they no longer give adequate service.

Arthur B. Carey, Jr.,
Gen. Mgr.

MILO WATER DISTRICT
Milo, Maine

WARRANT
FOR
ANNUAL MEETING OF THE MILO WATER DISTRICT

To E. J. Wingler, Constable of the Town of Milo, in the County of Piscataquis:

Greetings:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of the Milo Water District, to assemble at the Municipal Building in Milo on Monday February 2, A. D. 1959, at 7 o'clock in the evening to act on the following Articles, to wit:

Article 1. To choose a moderator to preside at said meeting.

Article 2. To see if the District will accept the report of the Auditor.

Article 3. To transact all other business that may legally be brought before the meeting.

Notice is hereby given that the Trustees of the District will be in session at their office in the Municipal Building from 10 o'clock in the forenoon until twelve noon on Saturday, January 31, 1959, and from 6 o'clock in the afternoon until 7 o'clock in the afternoon Monday February 2, 1959, for the purpose of correcting and preparing the list of persons qualified to vote in said District.

Francis D. Murphy, Jr.

Maurice C. Horne

Carl S. Deane

Trustees of the District

E. J. Wingler
Constable of Milo

Milo Fire Alarm

This List Supercedes All Previous Lists March 1, 1958

PLEASE DESTROY ALL OLD CARDS

INSTRUCTIONS

To give an alarm, break the glass in small box attached to the fire alarm box, open the door, pull the hook to the bottom of the slot once and let go, then close the door. Alarms are to be given from box nearest the fire.

After giving an alarm, remain or have someone at the box to direct the firemen to the exact location of the fire. Do not give an alarm of fire seen at a distance, be sure there is one. Never open a box except to give an alarm.

After opening the door the key cannot be removed except by a fire officer with a master key. Alarms for fires out of town and all signals will be given by an Officer of the Fire Department.

SCHOOL SIGNALS

- NO MORNING SESSION, ALL SCHOOLS—Two blasts of the fire whistle at seven o'clock, repeated twice at intervals of one minute.
- NO MORNING SESSION, GRADES ONLY—One blast of the fire whistle at seven o'clock, repeated twice at intervals of one minute. (Regular session in High School.)
- NO AFTERNOON SESSIONS—Above signals sounded at eleven o'clock. In case of one session, schools will close at twelve o'clock.

YOUR TOWN

If you want to live in the kind of a Town
Like the kind of a town you like,
You needn't slip your clothes in a grip
And go on a long, long hike.

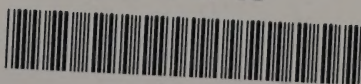

You'll only find what you left behind
For there's nothing that's really new;
It's a knock at yourself when you knock your town -
It isn't the town, IT'S YOU.

Real towns are not made by men afraid
Lest somebody else gets ahead:
When everyone works and nobody shirks,
You can raise a town from the dead.

And if you make your personal stake,
Your neighbor can make one, too:
Your town will be what you want it to be;
It isn't your town - it's you.
